

## TAB B-4

### INTERNATIONAL SUITE OF CODES

The University has adopted the 2018 International Suite of Codes, and the 2017 National Electric Code (NFPA 70), as design criteria for all renovation and new construction projects. Amendments to these Codes have also been adopted. These Codes and Amendments are herein incorporated into the University's *Manual of Design and Specification Standards (DSS)*, and are listed below:

#### 2018 Edition

- International Fire Code, as amended by the University of Arizona
- International Building Code, as amended by the University of Arizona
- International Existing Building Code, as amendment by the University of Arizona
- International Mechanical Code, as amended by the University of Arizona
- International Plumbing Code, as amended by the University of Arizona
- International Fuel Gas Code, as amended by the University of Arizona
- International Residential Code, as amended by the University of Arizona

#### 2017 Edition

- National Electric Code (NFPA 70), as amended by the University of Arizona

#### Amendments

- IFC - 2018 -UA
- IBC - 2018 - UA
- IEBC - 2018 - UA
- IMC - 2018 - UA
- IPC - 2018 - UA
- IFGC - 2018 - UA
- IRC - 2018 - UA
- NEC - 2017 - UA

#### Standards

Through the adoption of the above codes, a variety of standards as referenced therein are also applicable. In addition, other standards adopted by this document include, but are not limited to, below:

- ANSI/ASSP Z9.5 Laboratory Ventilation – 2022
- ASHRAE Standard 52.1 – Current Version
- SMACNA 008 IAQ Guidelines for Occupied Buildings Under Construction - 2007

#### Code and Standard Editions

The codes and standards referenced elsewhere in this document are the editions (years) as described in this Tab. Where a conflict exists in other sections, this Tab shall be the governing reference.

#### Multiple Requirements

If within this document, any requirements are in conflict with one another, the more stringent, as determined by UFS, shall be implemented.

#### End of TAB B-4
